UBC
Master of Business Analytics

12-MONTH PROGRAM
sauder.ubc.ca/mban
Discover the UBC Master of Business Analytics

The world of analytics is fascinating, challenging, and booming. Cutting-edge companies have no shortage of data. But they do have a shortage of highly skilled professionals who can interpret this data and use it to make effective decisions. In fact, experts are projecting opportunities are only going to increase in both the public and private sectors as businesses search for analysts to help them make strategic, data-driven decisions.

Equal parts data analysis and big picture decision-making, the UBC Master of Business Analytics (MBAN) prepares you to fill this void. In twelve months, this prestigious degree will give you more than the technical skills to analyze large sets of data, it will also prepare you for the business world. The curriculum covers everything from marketing to operations in addition to advanced analytics so that you will be able to interpret data within a broader business context.

“The UBC program added immense value to my life and career. The holistic design of the program taught me the skills required to generate business intelligence from data. While working in diverse teams, I could discover my passion and strengths, which made me feel confident and ready to launch my career in business analytics.”

Isha Kataria
Business Technology Analyst at Deloitte Canada
Toronto, Canada
UBC MBAN, Class of 2018
Why Study at UBC

You will learn from academic and business leaders alike, and with our small cohort, will benefit from face-to-face time with your instructors. Our “flipped classroom” approach, where essential knowledge is delivered outside the classroom and class time becomes grounds for active engagement, will help bring the modern business world to life as you learn.

entrepreneurship@UBC: UBC’s own venture accelerator has executives in residence, a startup space, a mentor network, a Lean Launchpad Accelerator and a Seed Fund for high-potential ventures. Since 2013, entrepreneurship@UBC has helped more than 600 UBC venture teams.

HATCH: A UBC technology incubator that leverages the expertise of UBC Sauder and entrepreneurship@UBC and a seasoned team of domain-specific experts to provide real-world, hands-on guidance.

A Community of Excellence

Across every discipline, UBC Sauder’s faculty are among the very best in the world. They’re not just world-leading academics, they’re also business leaders who, as in-demand consultants, apply their sought-after expertise to the real world.

UBC is

#1 University in Canada for Business & Economics*
#1 Business Program in Canada**
#37 University in the World*

* Times Higher Education World University Rankings 2019
** Maclean’s University Rankings 2019
Experiential Learning

As a UBC MBAN candidate, you will acquire the professional skills to complement your academic accomplishments. You will analyze analytics case studies, collaborate with industry partners, and have the opportunity to participate in national and global industry case competitions.

Analytics Consulting Internship

All UBC MBAN candidates participate in a 4-month internship where you will consult on an analytical challenge faced by a partner company or non-profit organization. Past industry partners include TELUS, Boeing Vancouver, Canada Post, and Fraser Health Authority.

Recent Case Studies

Using Text-Mining Approaches to Build Social Media Analytics

As part of one recent project, UBC MBAN candidates explored how to apply structure to large unstructured datasets found on social media. By conducting in-depth analyses, they distilled this valuable data into invaluable insights.

Forecasting Energy for the Vancouver International Airport (YVR)

While pursuing a UBC MBAN, students collaborate with prominent companies across a number of sectors. Using Vancouver International Airport as a case study, students forecasted monthly energy use, a necessity for the airport’s budget planning and contract negotiations.

Student Clubs and Case Competitions

MBAN Student Society: Not only does the UBC MBAN Student Society represent MBAN students in academic and administrative matters, it also builds community, facilitates a positive cohort experience and provides candidates with the opportunity to hone their leadership skills by organizing networking and social events.

Hackathon: In collaboration with Kabam Games, a leading mobile game developer, students competed in teams to conduct data analysis and create an algorithmic model that not only identifies which gamers will become spenders, but also determines their value.

INFORMS OR & Analytics Student Team Competition: Immerse yourself in the international community of business analysts by taking part in this leading international competition, where you will get practical experience solving a company’s real business problem using an operational research/analytics approach.

“I always wanted to be a bridge between business and technical people. The UBC MBAN program provided me with both technical skills and business insights that helped me learn how to identify the business need and then apply my technical knowledge to solve the problem.”

Kemal Baris Tan
Data Scientist at KPMG Vancouver, Canada
UBC MBAN, Class of 2019
How It Works & Program Journey

Associate Certified Analytics Professional (aCAP exam)
As part of the UBC Sauder MBAN program, you will have the option to write the INFORMS Associate Certified Analytics Professional certification exam. This prestigious designation is a credential for new analytics professionals.

“...The hands-on nature of the program not only helped me enhance my technical skills, but also prepared me for the industry. The Hari B. Varshney Business Career Centre was instrumental in shaping my personal brand and job search.”

Shally Tyagi
Data Developer at Traction on Demand
Vancouver, Canada
UBC MBAN, Class of 2019

*Emotional Intelligence 2.0
Vancouver: A City of Ideas

Consistently ranked as one of the most livable cities in North America and the world (The Economist, 2018), Vancouver offers unparalleled opportunities.

A Leading Entrepreneurial City
As Canada’s fastest-growing metropolitan economy (Conference Board of Canada, 2017), Vancouver is positioning itself as a leader in the job market. The growth of Vancouver’s tech sector has also gained recognition, making Vancouver a hub for startups. Companies born here include Lululemon, Arc’teryx, and Vision Critical, all of which have hired UBC Sauder graduates.

West Coast Lifestyle
Vancouver offers a temperate climate and unlimited options for outdoor adventure – from kayaking and sailing in English Bay to skiing and biking on the North Shore mountains. This cosmopolitan city is compact enough to make its recreational and cultural attractions easily accessible, and big enough to ensure there is always something new to discover.

Vancouver by the Numbers*
• 75,000 professionals work in Tech & Information & Communications Technology (ICT) in Vancouver
• Home to 3 of Canada’s 5 Tech Unicorns (startups valued at over $1 billion), namely Slack, Hootsuite and Avigilon
• 60,000 people employed in Vancouver’s finance sector
• All 5 of Canada’s largest banks have operations in Vancouver, and several international banks
• Social enterprise sector employs 13,000 people and earns $500+ million annually

*Vancouver Economic Commission
Your Fellow Candidates

What starts as your cohort will turn into one of the most valuable professional networks you could build. During your 12 months in the UBC Master of Business Analytics, you will be surrounded by a truly international cohort, who’ll bring different perspectives, opinions and backgrounds. Experiencing this collaborative environment will help you hit the ground running in the professional world.

Our Admissions Process

The UBC Master of Business Analytics selection process is rigorous. We intentionally keep our cohort small – with an intake of 50 to 60 candidates every year - to help foster a more collegial and personal environment. Candidates are carefully selected against competitive requirements to ensure that, once in the program, you learn from peers who have demonstrated vision, leadership and experience.

1. Review our Admission Requirements & Apply Online
   a. To be considered for the UBC Master of Business Analytics Degree, it is recommended that you review our admission requirements and ensure you understand the components of the application at sauder.ubc.ca/mban
   b. Create an account on our website and get started on your application.

2. Submit Documentation
   Applications will be reviewed once we have received copies of all required documents and references, and verified your test scores. Please note that if you submit unofficial documents at the time of application, official documents must be received by the Admissions office no later than August 25, 2020.
   - Transcripts/degree certificates/translation
   - Letters of reference (electronic reference)
   - GMAT/GRE
   - English Proficiency Exam (required for candidates whose degrees are from a university outside Canada or the U.S.A. in which English was not the official language of instruction)

3. Interview & Await Results
   a. All candidates being considered for admission will be contacted by the Robert H. Lee Graduate School for an interview either in person or by video call.
   b. If successful, you will receive a letter of admission from UBC Sauder’s Robert H. Lee Graduate School.
   c. Accept your offer! Get ready to join the class, starting in the last week of August. All students are recommended to be in Vancouver earlier to settle in and adjust.

*Data per the August 2018 entering class

**Includes undergraduate and master degree subjects
Program and Application

Location
UBC Point Grey Campus
Vancouver, British Columbia, Canada

Fees
Canadian Citizens and Permanent Residents:
$40,326 CAD*

International Students:
$55,703 CAD*

*Subject to UBC Board of Governors’ approval. The University may adjust the fees at any time without advance notice.
